

AC9M3M03 • Year 3 Mathematics

Time Units and Duration

Time units have fixed relationships: 60 seconds = 1 minute, 60 minutes = 1 hour and 24 hours = 1 day. Suitable units help compare event durations.

We are learning to...

recognise and use the relationship between formal units of time including days, hours, minutes and seconds to estimate and compare the duration of events

Choose unit

Use conversion

Estimate

Calculate duration

Compare

Success criteria

- I can relate seconds and minutes.
- I can relate minutes and hours.
- I can relate hours and days.

Key vocabulary

duration

formal unit

convert

Convert related time units

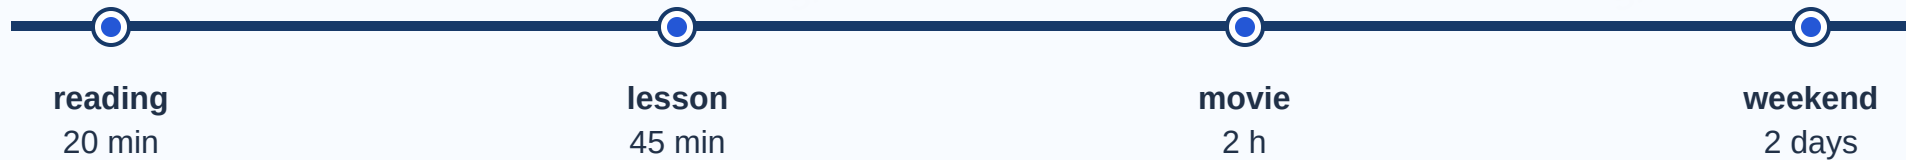

60 seconds = 1 minute

60 minutes = 1 hour

24 hours = 1 day

Use multiplication or division when changing between related units.

Compare event durations

Choose the unit that makes the comparison clear.

Show what you know

How many seconds in 2 minutes?

Think silently, show your reasoning, then explain it to a partner.

Expected response

2 minutes equals 120 seconds.

If students are unsure

Use the relationship 1 minute = 60 seconds, then count two groups of 60 seconds.
