

Equivalence table for your **Foundation Year Physical Sciences**.

Australia	USA (NGSS)	United Kingdom (England)	Canada (Ontario)
SCISCIFYSU_2	K-PS2 (Motion and Stability: Forces and Interactions)	Year 1 – Everyday Materials & Working Scientifically	Grade 1 – Matter and Energy: Energy in Our Lives + Kindergarten Exploring the World
AC9SFU02	K-PS2-1 – Plan and conduct an investigation to compare the effects of different strengths or different directions of pushes and pulls on the motion of an object.	Year 1 – Everyday Materials; Working Scientifically (observe, compare and describe how objects move and behave).	Grade 1 – Energy in Our Lives (investigate how forces affect movement); Kindergarten inquiry.
AC9SFU02_E1	K-PS2-1 – Observe and compare how toys move after pushes and pulls.	Working Scientifically – Observe, compare and group objects by movement.	Kindergarten – Observe and compare how toys and objects move.
AC9SFU02_E2	K-PS2-1 – Investigate how different shapes move down ramps.	Working Scientifically – Observe and describe movement of different objects on slopes.	Grade 1 – Investigate how object shape influences movement.
AC9SFU02_E3	K-PS2-1 – Compare rolling and bouncing of balls of different sizes.	Working Scientifically – Compare and describe movement using observations.	Grade 1 – Compare how different-sized objects move and bounce.
AC9SFU02_E4	K-PS2-1 – Investigate how different materials affect movement after pushes, rolls or bounces.	Everyday Materials – Compare materials and describe how they affect object behaviour.	Grade 1 – Energy in Our Lives – Explore how material properties affect movement.
AC9SFU02_E5	No direct equivalent (Best fit: K-PS2-1 + Engineering Design)	No direct equivalent	No direct equivalent (Some provincial Indigenous learning outcomes may include traditional technologies, but there is no direct science expectation.)
