

Topic: Materials

Teacher/Parents instruction: **[DO - NOT -PRINT-THIS- PAGE]**

- Introduce common materials using the poster and encourage students to identify objects made of **wood, metal, plastic, fabric, glass, and paper**.
- Discuss simple properties such as **hard, soft, smooth, rough, bendy, and waterproof**, allowing students to handle real classroom objects where possible.
- Support students as they identify, sort, and describe materials, encouraging them to explain why an object is made from a particular material.

Curriculum code:

Country	Curriculum Code	Curriculum Alignment
Australia	AC9SF101	Identify and describe familiar objects and the materials they are made from, and recognise that different materials have different observable properties.
United States (NGSS)	K-PS1-1	Plan and conduct investigations to describe and classify different kinds of materials by their observable properties.
United Kingdom	Year 1 Science – Everyday Materials	Distinguish between an object and the material from which it is made, identify everyday materials, and describe their simple physical properties.
India (NCF 2023 / NEP 2020)	Foundational Stage – Materials Around Us	Identify common materials, describe their observable properties, and relate materials to everyday objects.

ANSWER THE QUESTIONS

1 Name one thing that is made of wood. 	2 Name one thing that is made of metal. 	3 Name one thing that is made of plastic. 	4 Name one thing that is made of fabric. 	5 Name one thing that is made of glass. 	6 Name one thing that is made of paper. 
7 Circle the things that are soft. 	8 Circle the things that are hard. 	9 Circle the things that can break. 	10 Circle the things that are waterproof. 	11 Which material would you use for a raincoat? Circle your answer. plastic fabric paper	12 Draw your favourite thing and write what material it is made of.

Teacher Instructions

- Use the poster to introduce different materials and their properties.
- Encourage children to observe real objects around the classroom and name the material.

- Ask students to share examples from home.
- Support early writers by allowing them to draw and label.
