

Topic: Forces

Teacher/Parents instruction: **[DO - NOT -PRINT-THIS- PAGE]**

- Introduce pushes and pulls using classroom objects such as doors, chairs, balls, toy cars, and bags.
- Encourage students to act out and describe simple movements using words such as **push, pull, roll, slide, fast, slow, start, and stop.**
- Support students with drawing, circling, and verbal answers where needed.

FORCES

★ Forces can make things move! ★

A force is a **push** or a **pull**.

Pushes
move things
away.

Pulls
bring things
toward us.

PUSH			WHAT CAN A FORCE DO?	PULL		
 Push a door.	 Push a cart.	 Push a toy car.	★ Make things move. ★ Make things stop. ★ Make things go faster. ★ Make things go slower. ★ Change the direction.	 Pull a wagon.	 Pull a rope.	 Pull open a drawer.

MOVEMENT AND MOTION			EVERYDAY EXAMPLES			
 Fast	 Slow	 Stop	 A ball rolls.	 A car moves.	 A swing goes back and forth.	 A toy can be pushed or pulled.
 Start	 Roll	 Slide				

Forces are all around us every day.
Push and pull to make things move!
