

Materials Around Us

Objects around us are made from materials.
A **material** is what something is made from.

Key Ideas

- We can **see** and **touch** objects.
- We can **identify** the materials objects are made of.
- Materials can look and feel different. They can be **hard**, **soft**, **smooth**, **rough**, **shiny**, **bendy**, **clear**, or **waterproof**.
- Some objects are made from **one** material.
- Some objects are made from **more than one** material.

Examples of Materials

wood

metal

plastic

glass

fabric

Remember

- ★ Some objects are made from **one** material.
- ★ Some objects are made from **more than one** material.
