

TEACHER & PARENT GUIDE

Learning Focus:

Goal: Measure and compare lengths using uniform informal units (paperclips). Curriculum Link: Australian Curriculum v9.0 (AC9M1M01).

How to Guide the Learner:

Start at the edge: Remind the learner that measurement must always start from the very beginning edge of the object. Count carefully: Help them place a marker at the end of each paperclip to ensure they aren't overlapping.

Name: _____

Date: _____

Part 1: Length Challenge!

Measure the objects by counting the number of paperclips shown below each one.

1. Pencil

(Units: 8 paperclips)

2. Crayon

(Units: 4 paperclips)

3. Paintbrush

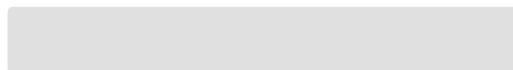

(Units: 10 paperclips)

4. Eraser

(Units: 2 paperclips)

5. Marker

(Units: 6 paperclips)

Part 2: Compare!

Circle the longest object from the list above:

Pencil / Crayon / Paintbrush / Eraser / Marker
