

Compare how images in different types of texts contribute to meaning

Learning intention

- compare how images in different types of texts contribute to meaning.

Teach and model

- understanding how authors and illustrators build up meaning across a sequence of images.
- comparing images from texts where images of the same subject are represented differently.
- understanding that some images convey meaning that is not included in the accompanying written text.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
