

Analyse how the aesthetic qualities associated with text structures, language features, literary devices and visual features, and the context in which these texts are experienced, influence audience response

Learning intention

- analyse how the aesthetic qualities associated with text structures, language features, literary devices and visual features, and the context in which these texts are experienced, influence audience response.

Teach and model

- examining a range of texts and evaluating the effect of text structures and language features.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
