

Manipulate more complex sounds in spoken words and use knowledge of blending, segmenting, phoneme deletion and phoneme substitution to read and write words

Learning intention

- manipulate more complex sounds in spoken words and use knowledge of blending, segmenting, phoneme deletion and phoneme substitution to read and write words.

Teach and model

- blending and segmenting sounds in words.
- deleting and substituting sounds (phonemes) in spoken words to form new words.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
