

Describe the effects of text structures and language features in literary texts when responding to and sharing opinions

Learning intention

- describe the effects of text structures and language features in literary texts when responding to and sharing opinions.

Teach and model

- sharing responses to texts using appropriate language to talk specifically about grammar and literature.
- sharing and discussing understanding of the effects of literary techniques on their appreciation of texts.
- using language appropriate to a text such as “flashback”, “tension” and “resolution” when sharing opinions about plot structure.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
