

Describe how spoken, written and multimodal texts use language features and are typically organised into characteristic stages and phases, depending on purposes in texts

Learning intention

- describe how spoken, written and multimodal texts use language features and are typically organised into characteristic stages and phases, depending on purposes in texts.

Teach and model

- recognising that paragraphs vary in their function and how they are organised in a text and between different types of texts.
- becoming familiar with the typical stages and language features of types of texts such as narrative, procedure, arguments, explanation, discussion and informative texts.
- describing the stages and phases, and purposes of narratives, historical recounts, procedural recounts, causal explanations, discussions of alternative positions on an issue, information reports.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
