Learning intention

- plan, create, rehearse and deliver presentations for purposes and audiences in ways that may be imaginative, reflective, informative, persuasive and/or analytical, by selecting text structures, language features, literary devices and visual features, and using features of voice including volume, tone.

Teach and model

- sharing feedback with a peer while planning, creating and rehearsing a presentation.
- monitoring ideas developed at each stage of creating a presentation in a blog or journal.
- preparing a presentation combining print, visual and audio elements to explore and interpret ideas.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
