

# Apply learnt knowledge to spell accurately and to learn new words

## Learning intention

- apply learnt knowledge to spell accurately and to learn new words.

## Teach and model

- understanding the different ways complex words are constructed, and drawing on morphemic knowledge and knowledge of unusual letter combinations when spelling these words.

## Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

## Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

## Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
