

NUMBER DETECTIVES: QUICK LOOK AND COUNT!

Learning Goal: I can recognise, count and compare collections.
I can subitise to 5 and count to at least 20.

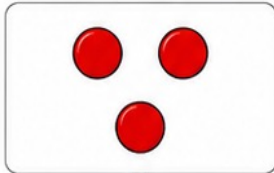

1. SUBITISING CHALLENGE

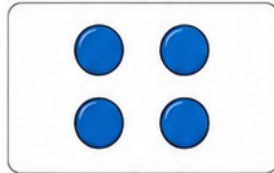

Look quickly – don't count one by one!

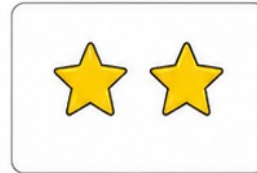

Show each picture for only 2 seconds.

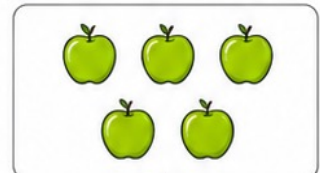

3

4

2

5

2. MATCH THE DIFFERENT WAYS

Dots	Fingers	Numeral
		2
		3
		4
		5

3. WHICH HAS MORE?

4 is more than 3.

5 is more than 2.

4. COUNT AND COMPARE TO 20

8

10

Which collection has more?

10 is more than 8.

5. I CAN...

- ☒ I can recognise groups to 5 without counting.
- ☒ I can match numbers shown in different ways.
- ☒ I can compare collections and tell which has more, less, or the same.
- ☒ I can count collections to 20 and explain my thinking.

TEACHER PROMPT

I looked quickly and saw 4 because I saw two and two. I didn't need to count each one!

Great mathematicians look quickly, think carefully and explain how they know!
