

Which Group Is Most Popular?

AC9M1ST02_E5 Discussing what data frequency means as the total count for a category, and relating the highest frequency to the most popular category.

Learning Intention: I can find the frequency of each group and name the most popular.

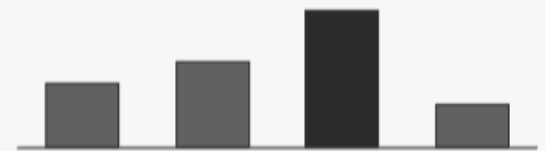

1. Count Each
Frequency is the count.
how many in this group?
count them all.

2. Compare
Look at the totals.
which is biggest?
which is smallest?

3. Most Popular
Highest count wins.
the tallest column
is the most popular.

💡 **Model It**

Sport chart: soccer 5, netball 3, cricket 2. Soccer has the highest frequency (5), so soccer is the most popular.

Let's Talk

What does frequency mean?

Which group has the most?

Most popular?

How many more than the next group?

For Teachers & Parents

Count each category's total:

that total is its frequency.

The biggest count is:

the most popular category.

Compare and discuss the findings.
