

Numbers to 120

recognise, represent and order numbers to at least 120 using physical and virtual materials, numerals, number lines and charts.

Learning intention

- recognise, represent and order numbers to at least 120 using physical and virtual materials, numerals, number lines and charts.

Teach and model

- using hundreds charts to build understanding and fluency with numbers.
- recognising that numbers are used in all languages and cultures but may be represented differently in words and symbols.
- using number tracks or positioning a set of numbered cards in the correct order and relative location by pegging on an empty number line.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
