

Analyse and evaluate how people, places, events and concepts are represented in texts and reflect contexts

Learning intention

- analyse and evaluate how people, places, events and concepts are represented in texts and reflect contexts.

Teach and model

- evaluating stereotypes of people, places, events and concepts, and expressing opinions on these representations in the contexts for which they are created.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
