

Understand that a clause is a unit of grammar usually containing a subject and a verb that need to agree

Learning intention

- understand that a clause is a unit of grammar usually containing a subject and a verb that need to agree.

Teach and model

- identifying clauses in texts by locating verbs and the key words that link to the verbs.
- identifying that a singular subject has a singular verb and a plural subject has a plural verb.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
