

Understand how verbs represent different processes for doing, feeling, thinking, saying and relating

Learning intention

- understand how verbs represent different processes for doing, feeling, thinking, saying and relating.

Teach and model

- exploring the use of relating verbs in constructing definitions and descriptions.
- identifying different types of verbs and the way they control meaning in a clause.
- exploring the use of sensing verbs and how they allow readers to understand what characters think and feel.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
