

Use interaction skills to contribute to conversations and discussions to share information and ideas

Learning intention

- use interaction skills to contribute to conversations and discussions to share information and ideas.

Teach and model

- using language appropriately in different situations.
- building on and connecting ideas and opinions expressed by others.
- learning the specific speaking or listening skills of different group roles.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
