

Identify how text connectives including temporal and conditional words, and topic word associations are used to sequence and connect ideas

Learning intention

- identify how text connectives including temporal and conditional words, and topic word associations are used to sequence and connect ideas.

Teach and model

- recognising how authors use text connectives to create links between sentences.
- recognising how text connectives link sections of a text, providing sequences through time.
- recognising how authors construct texts that are cohesive and coherent using pronouns that link to something previously mentioned and determiners.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
