

Understand how ideas can be expanded and sharpened through careful choice of verbs, elaborated tenses and a range of adverb groups

Learning intention

- understand how ideas can be expanded and sharpened through careful choice of verbs, elaborated tenses and a range of adverb groups.

Teach and model

- using precise verbs.
- knowing that the simple present tense is typically used to talk about present states.
- knowing that there are various ways in English to refer to future time: using the auxiliary “will”.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
