

Identify and describe how texts are structured differently depending on their purpose and how language features vary in texts

Learning intention

- identify and describe how texts are structured differently depending on their purpose and how language features vary in texts.

Teach and model

- recognising the social purpose of a persuasive text and how the purpose is reflected in the text structure and by the language features.
- examining the structures of book or film reviews and how they might move from description of context to summary of the text and then to judgement of the text.
- describing the structure and language features of literary texts, arguments, discussions, creative and analytical responses to literary texts, films or popular media.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
