

Understand how complex and compound-complex sentences can be used to elaborate, extend and explain ideas

Learning intention

- understand how complex and compound-complex sentences can be used to elaborate, extend and explain ideas.

Teach and model

- consolidating knowledge of simple, compound and complex sentences.
- examining the addition of ideas using a complex-compound sentence.
- identifying and experimenting with a range of clause structures and discussing the effect of these in the expression and development of ideas.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
