

Explain the effect of current technology on reading, creating and responding to texts including media texts

Learning intention

- explain the effect of current technology on reading, creating and responding to texts including media texts.

Teach and model

- identifying changes in topics considered to be newsworthy as a result of technological change.
- investigating the influence of communicative technologies such as SMS, email and GIFs on written language.
- analysing the impact of interactive elements of digital texts on texts such as magazines read in a digital form.

Check understanding

- Explain the main idea and give one accurate example.
- Show the idea in a second way: with words, a model, a diagram or symbols.
- Apply the idea to a short unfamiliar situation and justify the result.

Teaching cautions

- Ask the student to explain their choice, not only state an answer.
- Check that key vocabulary is understood in a new example.
- Mix representations so the skill is transferred rather than copied.

Quick lesson sequence

- Connect to prior knowledge and introduce the key vocabulary.
- Model one clear example, then solve a second example together.
- Finish with an independent check and a short student explanation.
