

AC9M3M04 • Year 3 Mathematics

Analog and Digital Time to the Minute

The minute hand moves around 60 minute marks while the hour hand moves gradually between hours. Analog and digital clocks represent the same time in different ways.

We are learning to...

describe the relationship between the hours and minutes on analog and digital clocks, and read the time to the nearest minute

Read minute hand

Read hour hand

Count minutes

Write digital time

Check

Success criteria

- I can read minute hand.
- I can read hour hand.
- I can read nearest minute.

Key vocabulary

analog clock

digital time

minute hand

Read 3:27

3:27

Count minute marks from 12; the hour hand is slightly past 3.

Match analog and digital representations

8:05

11:42

Use two digits for minutes in digital time, such as 8:05.

Show what you know

Read 3:27.

Think silently, show your reasoning, then explain it to a partner.

Expected response

The clock shows 3:27: twenty-seven minutes past three. The minute hand is on the 27th minute mark and the hour hand is just past 3.

If students are unsure

Use individual minute marks for exact times.

analog clock
