

International Curriculum Alignment -Counting and Comparing Collections to 20

Australia

AC9MFN03 – Quantify and compare collections to at least 20 using counting and explain or demonstrate reasoning.

AC9MFN03_E1 – Count each object once, understand that arrangement does not change quantity, and recognise that the last number counted tells “how many”.

AC9MFN03_E2 – Use counting to compare two or more collections and justify which has more or fewer items.

AC9MFN03_E3 – Use counting and one-to-one correspondence to work out how many items are needed for a purpose.

AC9MFN03_E4 – Discuss different cultural ways of representing counts, including an abacus and Chinese hand gestures.

AC9MFN03_E5 – Use First Nations Australian body-tallying and one-to-one correspondence to count to 20.

United States

CCSS K.CC.B.4, K.CC.B.5, K.CC.C.6, K.CC.C.7 – Connect counting to quantity, answer “how many?”, and compare groups as greater than, less than or equal.

CCSS K.CC.B.4, K.CC.B.5– Apply one-to-one correspondence, cardinality and counting objects in different arrangements up to 20.

CCSS K.CC.C.6 – Identify whether one group has more, fewer or the same number of objects as another group.

CCSS K.CC.B.4, K.CC.B.5– Match one number word to each object and count to determine how many items are required.

CCSS K.CC.B.4, K.CC.B.5– Represent quantities in different ways using objects, fingers, drawings and counting tools.

CCSS K.CC.A.1, K.CC.B.4, K.CC.B.5 – Count in sequence, use one-to-one correspondence and determine quantities up to 20.

United Kingdom

Year 1 Number and Place Value – Count, represent and compare numbers using objects, pictures and language such as more than, less than, fewer and equal to.

Year 1 Number and Place Value – Count objects accurately, identify quantities and represent numbers in different arrangements.

Year 1 Number and Place Value – Use the language of equal to, more than, less than, fewer, most and least.

Year 1 Number and Place Value – Count objects reliably and use quantities in practical contexts.

Year 1 Number and Place Value – Identify and represent numbers using objects and pictorial representations.

Year 1 Number and Place Value – Count objects and actions accurately and represent quantities in practical contexts.

Canada

Ontario Grade 1 B1.1, B1.2, B1.3 – Represent, compare and order whole numbers and use counting strategies to determine quantities and explain thinking.

Ontario Grade 1 B1.1, B1.2 – Read and represent quantities using concrete materials, pictures and counting strategies.

Ontario Grade 1 B1.2, B1.3 – Compare and order quantities and explain the strategy used.

Ontario Grade 1 B1.1, B1.2 – Represent quantities and use counting in meaningful everyday situations.

Ontario Grade 1 B1.1 – Represent whole numbers in different ways using tools, materials and visual models.

Ontario Grade 1 B1.1, B1.2 – Represent and count quantities using concrete, visual and culturally responsive strategies.
