

Practice: When a Group Has Zero

Read the chart. One column is empty. Answer the questions.

Name: _____ Date: _____

Worked Example

April = 2, May = 0, June = 3. May is empty because no student was born in May. Zero means none.

Q1. How many were born in May if the column is empty?

Q2. April has 2. How many is that?

Q3. Which month has zero?

Q4. Which month has the most: April, May or June?

Q5. What number do we write for a group with none?

Q6. How many in April and June together? (2 + 3)

Q7. Is zero a real answer on a chart?

yes / no

Q8. Why does an empty column still tell us something?

Explain.
