

Topic: Earth and Space

Teacher/Parents instruction: **[DO - NOT -PRINT-THIS- PAGE]**

- Use the poster to introduce the **Sun, Moon, stars, Earth, day, and night**.
- Discuss what students can see in the sky during the day and at night, and explain that the Sun gives us light and heat.
- Encourage students to observe the sky safely, share what they notice, and complete the worksheet using drawing, colouring, circling, or simple written answers.

Curriculum code:

Country	Curriculum Code	Curriculum Alignment
Australia	AC9SF104	Observe and describe the Sun, Moon, stars, Earth, and the pattern of day and night.
United States (NGSS)	K-ESS1-1	Use observations of the Sun, Moon, and stars to describe patterns that can be predicted, including day and night.
United Kingdom	Year 1 Science – Seasonal Changes	Observe changes across the day, identify the Sun, Moon and stars, and describe day and night.
India (NCF 2023 / NEP 2020)	Foundational Stage – Earth and Space	Observe the Sun, Moon, stars, and recognise the pattern of day and night through everyday experiences.

Students page:

EARTH & SPACE

Our Earth is part of space. Let's explore!

THE SUN

- The Sun gives us light and heat.
- It is a big star.
- We need the Sun to live.

THE MOON

- The Moon is Earth's friend.
- It shines at night.
- It changes shape.

THE STARS

- Stars shine at night.
- Some stars are big. Some are small.
- They are very, very far away!

OUR EARTH

- Earth is where we live.
- It has land, water and air.
- We must take care of our Earth.

DAY

- When our part of Earth faces the Sun, it is day.
- We see the Sun in the sky.

DAY AND NIGHT

NIGHT

- When our part of Earth faces away from the Sun, it is night.
- We see the Moon and stars.

ANSWER THE QUESTIONS

1 What gives us light and heat?

2 What do we see in the night sky?

3 Colour the Earth.

4 Is it day or night?

5 Is it day or night?

6 What shape is the Moon? Colour the shape.

7 What is the Earth made of? Circle.

land water air

8 Why is the Sun important? Circle the answer.

It gives us light and heat. It makes it rain.

9 Draw stars in the sky.

10 Draw the Sun in the sky.

TEACHER INSTRUCTIONS

- Talk about the Sun, Moon, stars and Earth using the poster.
- Use a globe or ball to show day and night.
- Encourage students to observe the sky (day and night) and share what they see.
