

**Topic: Light and Sound**

---

**Teacher/Parents instruction:** **[DO - NOT -PRINT-THIS- PAGE]**

- Introduce sources of light and common sounds using everyday objects such as a torch, bell, or musical instrument. Encourage students to observe how light helps us see, how shadows are formed, and how different objects make sounds.
- Support students in identifying light sources, shadows, and sounds through discussion, observation, and simple hands-on activities.

# LIGHT & SOUND

Light helps us see. Sound helps us hear.  
They are all around us every day!

### LIGHT

Light comes from things that glow.

Sun      Light bulb      Torch

Candle

### SHADOWS

When light shines on an object, a shadow appears on the other side.

### WE SEE

Light goes into our eyes and helps us see things.

### SOUND

Sound is made when something vibrates.

Bell rings      Drum beats      Guitar strings vibrate

### WE HEAR

Sound travels through the air and into our ears.

#### EXAMPLES IN OUR WORLD

Light comes in through the window.

A lamp helps us read.

We can make shadow shapes.

Loud sounds can hurt our ears.

We enjoy pleasant sounds like music.

We see and hear signals every day.

#### ANSWER THE QUESTIONS

**1** Name one thing that gives us light.

**2** Draw a shadow of the tree.

**3** What do we use to see?

**4** Name one thing that makes sound.

**5** What do we use to hear?

**6** Circle the things that give us light.

**7** Circle the things that make sound.

**8** If there is no light, what happens?

A) We can see ☐

B) We cannot see ☐

**9** If there is no sound, what happens?

A) We can hear ☐

B) We cannot hear ☐

**10** Draw a picture of something you see in the day.

#### Teacher Instructions

- Discuss sources of light and how shadows are formed.
- Talk about different sounds and how we hear them.

#### Curriculum Alignment

Australia: AC9SF103 | USA (NGSS): K-PS4-2  
UK: Year 1 Science – Light and Sound  
India (NCF 2023): Foundational Stage – Light and Sound

#### Fun Tip

Explore light and sound in everyday life! Observe, ask questions and have fun learning.
