

Topic: Read picture graphs, use tally marks and compare simple data.

Teacher/Parents instructions:

[DO - NOT -PRINT-THIS- PAGE]

- Introduce picture graphs and tally marks using real classroom objects or a simple class survey.
- Encourage students to count carefully, compare groups using words such as **more**, **fewer**, **most**, and **least**, and explain their answers.
- Finish by asking students to create or draw their own simple picture graph to demonstrate their understanding.

Curriculum codes:

Country	Curriculum Code	Curriculum Alignment
Australia	AC9MFST02	Collect, sort and compare data using objects, pictures and representations.
United States (CCSS)	CCSS.MATH.CONTENT.K.MD.B.3	Classify objects into categories, count the objects in each category, and compare the categories.
United Kingdom	Year 1 – Statistics	Interpret and construct simple pictograms, tally charts, block diagrams and simple tables.
Inda (NCF 2023 / NEP 2020)	Foundational Stage – Data Handling	Collect, sort, represent and interpret simple data using pictures, tally marks and objects.
